**House of Representatives**

March 19, 2026

The Honorable Tom Cole  
Chairman  
Committee on Appropriations  
United States House of Representatives  
Washington, D.C. 20515

The Honorable Rosa DeLauro  
Ranking Member  
Committee on Appropriations  
United States House of Representatives  
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for Cape Fear Public Utility Authority's (CFPUA) Raw Water Main Transmission Extension project in Fiscal Year 2027. The entity to receive funding for this project is the U.S. Army Corps of Engineers. The funding would be used to support the engineering and design of the extension of the raw water transmission main in the Cape Fear region, ensuring reliable water supply for New Hanover, Brunswick, and Pender Counties.

The project is an appropriate use of taxpayer funds because it provides clean water to and expanded capacity for one of the fastest expanding areas in the state. Additionally, enhancing water infrastructure increases property values and stimulates economic development in the region, leading to higher tax revenues for local governments. Improved water access also bolsters community resilience, reducing the need for costly emergency interventions during disasters. Federal funding connects residences and families to safe, clean water while reducing rate increases system wide.

The project has a federal nexus because the funding provided is for purposes authorized by Section 1344 of the Water Resources Development Act of 2024, Public Law 118-272, which authorizes assistance for environmental infrastructure in Southeastern North Carolina.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,
